About The Denver Gold Group

The Denver Gold Group, Inc (DGG) is a capital formation organization that has supported public and private gold and silver mining companies for nearly three decades. The Denver based not-for-profit association's members own the majority of the world's new gold and silver production, as well as most existing reserves and resources.

About The Gold Forum

The Gold Forum is the world's oldest and largest gathering of precious commodity equities and investors. Presented every year since 1989, it now showcases seven-eighths of the world's publicly traded gold and silver companies when measured by production or reserves. The invitation-only Gold Forum is attended by the world's leading precious metal investors and affiliated market experts.

About XPL-DEV

The Explorer & Developer Forum (XPL-DEV) is the independent non-deal road show for explorers and developers—tailored to venture market companies and pre-production projects. It is a not-for-profit investment and business development event focused on the world's most select junior and emerging mining companies. The Explorer & Developer Forum takes place as a sub-event within the Gold Forum.

MEDIUM-TERM FORECAST FOR GOLD PRODUCTION, DEVELOPMENT & EXPLORATION

Charles joined Metals Focus in early 2018 to head up Mine Economics after co-founding a consultancy business, Skarn Associates in 2016. He developed and led the Mine Economics business at S&P Global Market Intelligence (previously SNL). He has over 20 years of mining sector experience starting his career as a geologist, before joining Brook Hunt where he worked as a senior mining analyst for nearly 10 years. Following this he worked as an Extel-rated sell-side mining analyst for a number of investment banks including Evolution Securities and Oriel Securities. Prior to this Charles was Managing Director of The Gold Mining Company Ltd, an investment vehicle focused on acquiring operating gold mines in West Africa. He has also served as CEO of several private exploration companies targeting oil shale, gold and potash assets in East Africa and antimony-gold projects in Georgia.

Metals Focus is one of the world's leading precious metals consultancies. They specialize in research into the global gold, silver, platinum and palladium markets producing regular reports, forecasts and bespoke consultancy. The Metals Focus team has an exhaustive range of contacts across the world. The Metals Focus team regularly presents at international conferences and seminars on precious metals. Metals Focus is also frequently quoted in the media for their views on the precious metals markets. Metals Focus is dedicated to delivering world class statistics, analysis and forecasts for the precious metals markets.

GOLD AND CLIMATE CHANGE

Terry Heymann is the World Gold Council's CFO, overseeing finance and operations. Terry has broad experience across the gold supply chain. At the World Gold Council, he has led the development of the Conflict-Free Gold Standard, the first industry-led scheme to set out responsible business practices in conflict-affected areas, and the development of the Guidance Note on All-In costs, which has been widely adopted by the gold mining industry. In addition to his role as CFO, Terry also oversees the World Gold Council's work on standard-setting for the industry.

Prior to joining the World Gold Council, Terry was a Principal at Marakon Associates, a leading strategy consultancy, where he helped clients in a number of industries on strategic issues and new product development.

The World Gold Council is the market development organization for the gold industry. The World Gold Council's purpose is to stimulate and sustain demand for gold, provide industry leadership and be the global authority on the gold market. The World Gold Council is a unique organization that delivers tangible benefits to the gold industry. They are an active force within the market.

THE RELEVANCE OF GOLD IN A DIGITAL WORLD

Charlie Morris is Chief Investment Officer at Newscape. He is the Lead Manager of the Newscape Diversified Growth Fund and chairs the investment committee. Having studied the gold market since the late 1990s, he writes *Atlas Pulse* which gives a 30,000 ft view of the gold market. That led to an interest in blockchain technology and in 2013, he founded Crypto Composite; an analytics platform for digital assets. This project aims to provide institutional investors with an in-depth look inside blockchains so they can measure network activity. This increase in transparency will lead to greater confidence in digital assets among the investment community.

Prior to Newscape, Charlie spent 17 years at HSBC Global Asset Management as the Head of Absolute Return managing a multi-asset fund range with assets in excess of \$3 billion. He is a familiar face in the financial media and writes frequently as the editor of *Atlas Pulse* and the *Fleet Street Letter*, Britain's oldest financial newsletter. Prior to fund management, Charlie was an officer in the Grenadier Guards, British Army.

Newscap is a diversified financial services boutique founded in 2008. Their valued clients and investment partners include financial intermediaries, pension funds, professional families, trusts and fiduciaries, institutions and sovereign wealth funds. With a wealth of diverse talent and expertise, Newscape seeks to provide successful long term solutions and superior risk adjusted outcomes for their clients and partners.

WHAT THE WESTERN JEWELRY INDUSTRY CAN LEARN FROM THE EAST

Roy Sebag is the Chief Executive Officer of Goldmoney Inc. following the merger of Goldmoney with BitGold, an online financial platform providing free global payments and secure savings in physical redeemable gold bullion. Mr. Sebag founded the company in 2014 along with Joshua Crumb. He also serves as the Managing Principal of Braavos Capital, an international private investment organization engaged in value-oriented investments across a variety of asset classes and industries.

Mr. Sebag previously served as founder and portfolio manager of Essentia Equity Ltd. an investment partnership founded in 2004 that engaged in fundamental long and short equity investing in distressed, event-driven, and natural resource related opportunities. At Essentia, Mr. Sebag developed a successful track record analyzing and investing in highly charged binary events including bankruptcies, reorganizations, and geopolitical uncertainties. From 2004-2010 Essentia Equity delivered superior risk-adjusted returns and was quoted in financial media publications including: *Barrons*, *Bloomberg*, *Globes*, *The Marker*, and *Sum Zero*.

Goldmoney Inc., a financial service company traded on the Toronto Stock Exchange (TSX:XAU), is a global leader in precious metal investment services and the world's largest precious metals payment network. Safeguarding \$1.9 billion in assets for clients located in more than 150 countries, Goldmoney is focused on a singular mission to democratize access to gold through innovative technology.

IN MEMORIAM
Peter Munk
1927 - 2018

Peter Munk's proudest accomplishment was Barrick Gold Corp. Starting in 1983, he transformed it from a minor player in the gold industry into its leader.

Gold was Munk's 'third career.' After earlier ventures in high-end stereos and the hotel and real estate industry, Munk and his partners entered the gold business with the acquisition of the Renabie Mine near Wawa, Ontario. In 1984, Barrick acquired Camflo Mining which had operations in Quebec and Nevada. The December 1986 acquisition of the Goldstrike Mine from PanCan Minerals and Western State Minerals was transformative.

Munk brought entrepreneurship and disruption to an industry bounded by long-standing conventions. Underscoring his financial sophistication, he pioneered a hedging program that was instrumental in driving Barrick's success even during periods of persistently declining gold prices.

Munk is respected as one of Canada's most significant philanthropists, having donated nearly \$300 million to causes and institutions that were close to his heart.

Celebrating a golden era 庆祝黄金的新纪元

.....

The Chinese gold market has grown phenomenally over the past thirty years. China is now the largest producer and consumer of gold, and is having an increasingly important influence on the evolving gold industry.

The World Gold Council and Denver Gold Group's growing Chinese membership reflects China's increasing prominence in the global gold market.

In partnership with our Chinese members, we will continue working to develop a vibrant and sustainable gold industry for the benefit of all.
